Information Collection and Use

Photos to process

Our photo processing service is happening offline with the help of an AI model. The photos are only stored to your local device there is no server in the background.

Your photos are not stored at all, therefore it's impossible to link the photo to the author. We do not disclose your photos to any third-party services.

Some options use special face recognition technologies to detect a face or faces in a photo, find required facial key points (the set of points varies with the effect or feature), and apply the effect to your photo. No facial data will be collected in this process.

Third parties

The app does use third party services that may collect information used to identify you.
